OUR COLLECTION – YOUR CHOICE

HANDCRAFTED QUALITY - Established in 1994, Ortega Guitars introduced German design to authentic and traditional methods of guitar making. Committed to innovation and quality, we strive to improve what is expected at every level of all our acoustic instruments. Options like the 12hole bridge, often found

only on high-end guitars, are standard for our entry level to professional nylon string guitars. Our wide variety of body and neck sizes accommodates players of all ages, giving everyone an opportunity to learn and play. Inspection standards at multiple stages ensure that our instruments are

of the finest quality before they reach your hands. We offer a wide range of stringed instruments and accessories for many musicians' needs. Take a moment to peruse our catalog and discover the extensive collection we offer.

NYLON STRING GUITARS

REQUINTO SERIES

Rooted in Mexican and Latin American traditions, requinto guitars are smaller versions of the classical guitar with a shorter scale length and a notably deeper body depth. Our Requito Series guitars are not only suitable for Trío romántico groups and traditional folk music but are also great instruments for acoustic performances, where amplification is not possible, as they are much louder than a traditional small body guitar.

THERMO SERIES

OPTIONS

Our Thermo treated nylon string models are created with the use of a revolutionary technique that processes selected woods into "aged" tonewoods. The woods are heated up in a vacuum with a special treatment to remove water and resin. The results are lightweight, harder, and stronger woods – a process that normally takes decades – but it retains a sensational response and tone. The process makes the Spruce tops shine like amber which gives the additional vintage aesthetic.

ECOTIP

Sustainability is always an important factor for Ortega Guitars when selecting materials for our products, and there are few natural materials suitable for instrument building that are more sustainable than Bamboo. This unique material continues to grow very quickly, without replanting, and its grain pattern actually makes it stronger than many typical hardwoods.

STOMP BOXES

STOMP BOX EFFECT SERIES

2 SOUND EFFECTS - STADIUM BASS DRUM (A) AND SNARE + TAMBOURINE COMBO (B)!

BeatNICK

Your **HANDS FREE** rhythm section

STADIUM BASS DRUM & SNARE + TAMBOURINE COMBO

Digital Percussion Stomp Box with 2 pre-programmed drum/percussion sounds. Create your hands free beat - just tap your foot.

- 2 pre-programmed sound effects (A and B)
- Stadium bass drum (A) and snare + tambourine combo (B)
- Velocity sensitive - you have control by tapping your foot
- Sweeping volume control to adjust percussion sounds (blend the percussion sound with the unaffected instrument signal together through the output to one channel)

ORTEGA UHF WIRELESS SYSTEM

NEW!

The **OSWS** is an innovative wireless pickup system available in two sizes: OSWS86 for classical guitars with 86 mm soundholes, and OSWS100 for acoustic guitars with 100 mm soundholes. Designed for guitarists without pre-installed pickups, OSWS enhances live performance and mobility without the need for complex modifications that could damage the guitar's natural sound and appearance.

Installation is as easy as fitting a soundhole cover, making OSWS ideal for occasional performances and straightforward acoustic amplification. It features reliable wireless transmission, maintaining guitar stability and aesthetics. With high-sensitivity microphones and an optimized audio processor, OSWS ensures clear sound quality while preventing feedback, delivering stable audio even in challenging stage conditions.

The OSWS Digital Wireless System:

- Easy to install - no tools needed
- 4-channel UHF band
- License-free within the frequency range
- Adjustable gooseneck microphone
- Rechargeable via USB-C (cable included)
- 30m range in open conditions

6STRING GUITAR – ATMOSPHERE green

ORTEGA Guitars atmosphere green strings are created and manufactured in Italy. We replaced the usually oil based treble strings with a newly developed nylon material which is made from 100% plant-based products. Our Atmosphere Green strings deliver a perfect combination of bright, warmth, punchy tone and incredible projection. Precise intonation and long-lasting tuning stability add to their exceptional playability.

6STRING GUITAR – ATMOSPHERE balance

Through our intensive engineering process, we calculate the windings, thickness, and core of the 3 bass strings. This process creates additional flexibility which increases vibration and resonance, ultimately delivering an extraordinary brightness and crystal-clear tonal experience. This creates a fully balanced string which delivers superior feel and tone.

ORTEGA LOVES LEFTIES!

As a left-handed person, you do not need us to tell you how difficult it is to find a stringed instrument with the exact features, fit, and feel you are looking for. At Ortega Guitars, we understand this challenge, which is why we offer one of the widest selections of left-handed stringed instruments on the market. In this catalog you will find 60 models of guitars, ukuleles, acoustic basses,

#OrtegaLovesLefties

mandolins, and banjos specifically designed for all the many left-handed musicians out there.

With our broad selection of sizes, colors, neck widths and configurations, you are sure to find the perfect instrument for your needs, without the typical "lefty upcharge"!

LEFT-HANDED NYLON STRING GUITARS

OPTIONS

Ortega breaks barriers without losing focus on the basics of classical guitar making. Always conscious of the deep traditions of the guitar construction, we are not afraid to apply contemporary processes in order to improve the playing experience. Two-way truss rods, 12-hole bridges, and a wide variety of scale lengths and nut widths are just some of the ways Ortega is moving guitar building forward in order to make a better instrument for you.
